

DIGITAL ENGINEERING : TO TRANSFORM EVERY CUSTOMER JOURNEY THROUGH CUTTING-EDGE TECHNOLOGY THAT BRINGS COMPANIES CLOSER TO THEIR CUSTOMERS

TECH STACKS:

CLIENT:

The client offers a service engagement platform to digitally transform backend processes and conversational interfaces using AI and ML technology.

CHALLENGE:

Our client is continuously accommodating their platform with new features & innovations to improve existing functionalities. They've recently initiated a technology shift for frontend and introduced the deployment process via docker. They are now planning a technology shift for the backend process.

SOLUTION:

We are offering skilled resources & technical support to quickly improve the client's platform. Along with solving the problem, we are focused on client satisfaction as well.
